BULLETIN #4, 2007

PHILATELIC BULLETIN

 Norfolk Island 120

Dear collector,

This will be my last newsletter from the Bureau, so I will be a bit self-indulgent. I have decided that due to my changed health situation I need to work in a less demanding environment, and will be changing jobs next week.

It is with considerable sadness that I will leave this position, and the Bureau staff as we have been a close team now for over 5 years.

There will be many aspects of this position I will miss. I have especially enjoyed being involved with stamp production. The background research for most issues has given me considerable insight into historical, social and natural aspects of our island.

I have also enjoyed communicating personally with so many of our customers. This has come about largely due to emails these days, and also some customers regularly ring from the far corners of the earth to talk person to person with the staff. I have met many of our customers at exhibitions, and quite a number have dropped in to make themselves known while they were here on holidays.

I commenced work in the Norfolk Island Philatelic Bureau in 1983 and worked until 1991 when I had the chance to work on Cocos (Keeling) Islands. I returned from there after two years, and I again worked in the Philatelic Bureau until 1998 when I moved to Australia for my children's secondary schooling. After 4 years away, I returned once again until the beginning of 2007; so as you can see I have spent most of my working life working in philatelic and producing stamps. It will be interesting to see how things work out from now.

Initially Julie Burns will take over the role, and as Julie has been in the Bureau for almost 4 years now, I am sure you will not notice me gone.

Christmas time is quickly approaching, so we all wish you Seasons Greetings and Best Regards for 2008.

And to conclude I thank you all for your continued interest in Norfolk Island's stamps.

Regards
Allan

NEW STAMP ISSUES

Faces Of Norfolk Island

This stamp issue is very special, depicting Norfolk Island identities, all of them able to trace their lineage back to Pitcairn Island.

Each of these identities has a story.

Colin Lindsay Buffett known as Boonie, was born in Norfolk Island in June 1926. He was a sixth generation Pitcairn Descendant. Boonie was a member of the RAAF during World War II. He trained in Sydney as a Plumber and Gas Fitter under the Post-war training scheme and became a Master Plumber. Boonie married Heather Kidd in 1946 and they had three daughters, Colleen, Coral and Alma. Boonie worked as a Master Plumber both in Sydney and in Norfolk Island and he worked at the Whaling Station in Cascade before joining the Administration of Norfolk Island in 1962. He held various positions with the Administration culminating as Senior Works Supervisor. Boonie had many talents, he was a good sportsman, gardener, carpenter and woodturner.

Darlene Buffett, is a resident of Norfolk Island. Darlene was born and raised here in the island. She works full time as Secretary to the Administrator of Norfolk Island. Darlene is a keen golfer and a local identity on Radio Norfolk (VL2NI). Darlene is very much a family first woman and a keen gardener and loves spending time fishing. You can often see Darlene on the weekends riding around the island on her much loved Triumph Bonneville.

Tane Grube, a local girl with a Pitcairn connection. Tane grew up partially in mainland Australia and Norfolk Island. After completing her education she returned to Norfolk Island. Since returning to the Island Tane and her partner have welcomed the arrival of their son. This stamp depicts 2 generations of Norfolk Islanders and reflects the strong family bonds that are present here in the island.

Andre Nobbs, had the advantage of a Norfolk Island education, and the many and varied experiences that only growing up on a small Island can give.

Andre is a talented musician and his life experiences are often reflected in his song writing, playing and performing. Like a lot of young islanders, Andre's further education and employment have taken him off island to mainland shores. He jokes that his sense of humour is derived from his time in the Air Force and then to the work force and places around the globe.

Andre now resides on Norfolk Island with his wife and family. In 2007 he was elected to the office of Chief Minister with the Norfolk Island Legislative Assembly.

Classic Cars

Classic Cars can be seen from time to time driving around the Island. They are all owned by local car buffs & have been imported into the Island over the years.

The cars depicted in this issue are well-loved models dating from 1950 to 1971 and are kept in pristine condition. These cars are used for weddings and street parades and on occasion the 1971 Rolls Royce, Silver Shadow, can be hired out to do a scenic tour around the Island and is chauffeured by David (Kik) Quintal, a well-known local identity who loves to tell the history of his Island home.

I expect that this issue will be extremely popular world wide with all the classic car enthusiasts so get those orders moving so you do not miss this great issue.
